## AN EXPANDING SET OF PROVEN SOLUTIONS

### VascuTape – Easier Vascular Procedures

VascuTape® brings greater speed and precision to vascular procedures. Our flexible, adhesive radiopaque marking tapes provide pinpoint precision for vascular procedures. Stent placements, fistula location during in situ bypass grafting, and balloon catheter insertions are all made simpler and more accurate.

### Dardik Carotid Shunt – Safe, Flexible, Atraumatic

Our precision-manufactured shunts improve the safety and efficacy of carotid endarterectomy. Using high-quality natural latex balloons for vessel occlusion, the Dardik™ Carotid Shunt reduces the risk of arterial trauma by eliminating the need to clamp the carotid artery.

### LeMaitre Catheters – Stability, Precision, Quality

Manufactured to precise specifications in our ISO-9002-certified facility, this complete family of high-performance latex catheters offer safe, reliable performance for arterial embolectomy, venous thrombectomy, gallstone extraction, occlusion, and irrigation.

### Hadeco Doppler – Superior Signal Sensitivity

The Hadeco® HD-307 Doppler is the sensitive, lightweight, compact Doppler that provides clear, strong signals with a minimal background noise. It is the superior choice for obtaining hemodynamic information in the narrow confines of surgery.

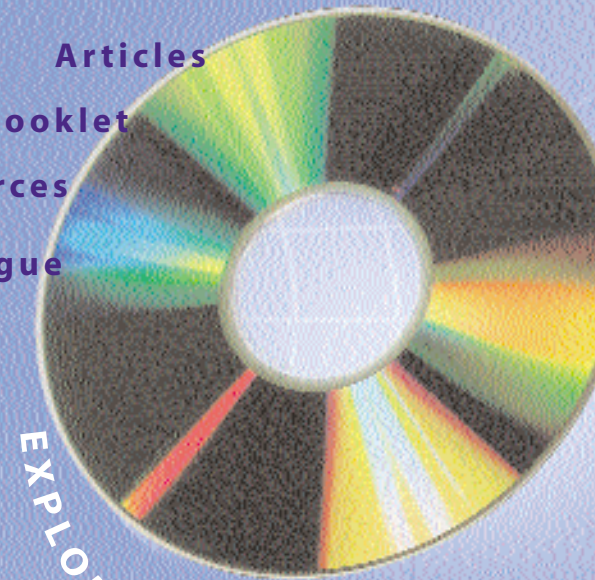

### LeMaitre Valvulotomes – Faster Procedures, Faster Recovery

Through its self-sizing, self-centering design, our flagship Expandable LeMaitre Valvulotome is the breakthrough instrument that brings speed and simplicity to in situ bypass grafting. A unique Teflon sheath houses sharp cutting blades that automatically adjust to the vein diameter, eliminating the need for multiple sizes of instruments and enabling optimal valve cutting.

### Request our Interactive CD-Rom — Free

For years, we've been a leading, trusted resource for the vascular community, offering a growing range of solutions, information, and expertise. Now, we're sharing those resources in an exciting new format — the "LeMaitre Vascular Resources" CD-Rom. Get your free copy today by returning the attached reply card or call us at **781 221-2266**. This interactive CD-Rom gives you further details about the complete family of LeMaitre Vascular solutions and much more:
